

M-124FX

Analogue Console Mixer

Experience the freedom
to create your own sound.

We supply sound,
not equipment.

TOA's M-124FX is an analogue console mixer for small and medium applications. With 12 input channels and built-in DSP effect with 100 presets, the unit offers a good basis for use in a professional environment as well as for technical laypersons. Still, the layout and technical features make the unit easy to use. These features make it a practical solution for applications such as Houses of Worship, multipurpose or conference rooms. In addition to speech transmission with optimal intelligibility, the mixer can also be used for live music. The M-124FX features optimised DSP settings and a USB port with recording function.
